

GLOBAL EMPLOYER OF RECORD (EOR) SERVICES

A turnkey solution for multi-national employment

Regardless of a company's experience level as a multi-national employer, APC's Global Employer of Record (EOR) Services takes the guess work out of global employment, ensuring efficient and compliant onboarding of global talent.

HOW IT WORKS

Working with our worldwide network of top quality, in-country partners (ICPs) who serve as the Employer of Record, APC remains your single point-of-contact. We manage the invoicing and the global ICP relationships so that you can focus upon growing your business.

HOW IT HELPS

Expand your talent pool of specialized professionals without requiring relocation.

Avoid increasing immigration-related challenges and red tape hang-ups by employing critical talent in their respective home country.

Engage any worker obtained through mergers & acquisitions, even when you don't have a local entity established in a given country.
